

Code of Ethics – Summary of Standards College of Pharmacists of British Columbia

The College of Pharmacists of BC's *Code of Ethics* and its companion documents: *Conflict of Interest Standards* and *Patient Relations Program* collectively articulate the professional commitment registrants, as healthcare professionals, have made to their patients, society and the profession.

As ethical and accountable healthcare professionals registrants abide by the following standards:

Responsibility to Patients:

- Standard 1: Registrants Protect and Promote the Health and Well-Being of Patients**
- Standard 2: Registrants Protect the Best Interests of their Patients In Achieving their Chosen Health Outcome**
- Standard 3: Registrants Practice Respect for Patients**
- Standard 4: Registrants Protect the Right to Confidentiality of their Patients**
- Standard 5: Registrants Participate in Ethically Valid Research**

Responsibility to Society:

- Standard 6: Registrants are Committed to Benefiting Society**

Responsibility to the Profession:

- Standard 7: Registrants are Committed to Personal and Professional Integrity**
- Standard 8: Registrants are Sensitive to and Avoid Conflict of Interest**
- Standard 9: Registrants Participate in Ethical Business Practices**
- Standard 10: Registrants are Committed to Professional Development**
